

MURIEL SORIANO

Statement :

After having spent many years as a watercolourist and a silk scarf designer for Liberty's of London, Muriel Soriano's work has evolved from a figurative form of expression, to that of an evocative semi-abstract world. Her work is an exploration of the inter-relationship between colour and light situated in the gap between seeing and feeling. Movement and stillness alternate and are the result of her experiential approach to her surroundings. Nestled between impressionist and abstract paintings, her canvases are an invitation to a journey beyond the world we see.
