NAIDOC Market, Central Institute of Technology, Perth

Various Local Markets, Mandurah

One of Mandurah's most innovative visual artists, Lisa Payton Creative Arts is divulging and addressing her inspirational and highly experimental techniques.

Lisa Payton's paintings are designed to draw the viewer into their moody swathes of color and texture.

Over her creative career, Lisa has birthed a strong and unique brand she has entitled "Abstract Earth Art." Her self-developed mixed medium style involves experimental paint pouring, multiple textured layering and brush & palette knife techniques.

Inspired by the magnificence of Australia's landscape and nature in all its realms of space, shape, and detail, Lisa deploys a variety of mediums such as grass tree resin, bitumen, resin, textured plasters, modeling paste, impasto, canvas and board, photography skills, wool, felt, silk, material and paper art to complete her acrylic and enamel paint masterpieces.

Payton's canvases and prints deliberately leave the subject open to interpretation, enhancing the sense of intimacy and connection between artwork and viewer.

Her powerful works are an intoxicating reminder of the ethereal qualities of weather and the immensity of nature. She enjoys watching people interpreting her artwork and creating their own story from it.
