### **About my work:**

The combination between abstract and figurative forms, mixed techniques and different materials allow me to compose layers into my paintings and express myself in diverse ways. I'm working with acrylic, oil, watercolors, pastels, charcoal and ink.

My work is influenced by past and present experiences and by situations that trigger immediate inspiration to create. My master studies of plant science and later on my work as flower breeder, created a very strong and direct connection to nature. The creativity that emerged from the process of creating new species of flowers as well as the picturesque and colorful surroundings of the greenhouses and fields of flowers influenced my work.

I'm a member of Vereniging Amstelland Kunst (VAK) - [www.amstellandkunst.nl](http://www.amstellandkunst.nl)

### **Exhibition in 2015:**

Marziart Gallery, Hamburg Germany

Kunsthuis Elsenhove, Netherlands
