

Carina Sluyter

After I finished art academy in Utrecht and cultural science (university Heerlen) I started to teach drawing; painting and stone carving.

Children, young adults and adults were in my class.

I worked on demand, often for smaller companies and projects for children for a municipal organization in my hometown Utrecht.

I was teaching for a long time 2002 -2019

Since 2019 I teach on secondary schools and even an international school in Utrecht for refugees and expats.

It is a pleasure for me to teach and let them explore their talents and discover creativity. It always brings a lot of fun!

Every now and then I exhibit my paintings over the years (I was by Marion in 2011!) but I had no systematic plan for doing this.

In 2024 I exhibit my paintings on a more regular base: Bubble Art Projects gave me the opportunity to let my work circulate between cities in Europe : Cologne ; Mainz ; Venice ; Anvers ; Luxembourg and even Dubai.

So I am very happy to enjoy and play with forms and colors for myself now! And having time and ideas to carry this out.
